Administrators apostolic
Here are entered works dealing with persons appointed by the Pope to administer a diocese when its bishop is prohibited or prevented from exercising his office, or when a diocese is vacant and there is no chapter to elect a vicar capitular.
The term is also used for administrators appointed by the Pope to govern ecclesiastical institutions under similar circumstances.
Since 1918 the term has been used for appointees to an administrature apostolic, a provisional form of diocese.

[PF861-PF884]
Here are entered works on the language spoken and written by the descendants of the Dutch colonists in South Africa which gradually evolved and differentiated from the Dutch South African dialects of the earlier periods. Works on Dutch South African dialects not conforming to Dutch as spoken or written in the Netherlands are entered under Dutch language--Dialects--South Africa.

Alphabet
Here are entered general and comparative works dealing with the Semitic alphabet and its ancient and modern derivatives, or with similar series of characters employed to represent the sounds of a language.

Works on variations in the style of writing in the past, and especially with ancient and medieval handwriting, are entered under Paleography.

Works on written languages as a form of communication or discourse are entered under Written communication.

Works on the process or result of recording language in the form of conventionalized visible marks or graphic signs on a surface are entered under Writing. Works on the writing of a particular language are entered under the name of the language with subdivisions Alphabet and Writing, e.g. Greek language--Alphabet; Egyptian language--Writing. Works on systems of writing used by several peoples are entered under Writing, followed by the name of the system, e.g. Writing, Arabic.

Antiques *(May Subd Geog)*
[NK]
Here are entered works on decorative or utilitarian objects, generally more than one hundred years old, that have aesthetic or historic importance and financial value. General works on any objects of interest to collectors, including mass produced items of little intrinsic value, are entered under Collectibles. Works on decorative art objects are entered under Art objects.

Arab-Israeli conflict
[DS119.7-DS119.76]

Arab-Israeli conflict *(Continued)*

Here are entered works on the political and military conflicts between Arabs and Israel, including the question of national rights in the area of the former mandate for Palestine beginning in 1948, and comprehensive works that include the earlier period. Works on the general relations between Arabs and Jews as well as works on the question of national rights in Palestine up to 1948 are entered under Jewish-Arab relations. Works on general foreign relations between Israel and specific Arab countries are entered under Israel--Foreign relations--[place], with an additional entry under [place]--Foreign relations--Israel.

This heading may be further subdivided by the subdivisions used under individual wars.

Here are entered works on the design and style of structures. Works on the process of construction are entered under Building. General works on structures or edifices are entered under Buildings.
This heading is subdivided by place for works on architecture indigenous to the place named, e.g. Architecture--United States. The heading is qualified by a national qualifier for works on architecture of the type named in the qualifier but located in other places, e.g. Architecture, American--India.

Here are entered general works on authors who have left their home country due to persecution or banishment by government authority, as well as works on such authors settled in a particular place. For works on exiled authors originating from a particular place an additional subject entry is made under the heading for authors from that place, e.g. Authors, Ukrainian.
